About Us

A global company with \$1.5 billion in sales, Allnex is a leading supplier of resins and additives for architectural, industrial, protective, automotive and special purpose coatings and inks. We are recognized as a specialty chemicals pioneer and for offering the broadest portfolio of high quality products. Our product range entails innovative liquid resins & additives, radiation cured and powder coating resins & additives and cross linkers for use on wood, metal, plastic, and other surfaces. With 16 manufacturing, 13 research & technology support facilities throughout the world, we provide responsive, local support to our customers, helping them to rapidly bring advanced coating solutions to the market.
