Alpha Engineering Equipments

<https://www.indiamart.com/alphaengg-equipments/>

We are a well known organization engaged in manufacturing, supplying and trading Surveying and Testing Equipment in Nagpur, Maharashtra. The range that we offer can determine angles, elevation and direction accurately and soil precisely.

About Us

Established in the year 1992, we, “ **Alpha Engineering Equipments** ”, are a leading manufacturer, supplier and exporter of Surveying and Testing Equipment in Nagpur, Maharashtra. Our range finds extensive application in accurately identifying angles, elevation and direction, and assessing bitumen, cement and soil. Apart from these, the range can also be used to test metals, concrete, tar, fuel, rubber, leather. The products that we offer are highly demanded in the national and international markets due to features like compact size, ease of operation, accurate readings, long service life and reliability.

Our organization carries out the manufacturing operations at the world class production unit. We have a testing laboratory where the products and raw material are tested extensively to ensure full compliance with the present industry standards. All units are tested by the respective professionals who possess complete expertise regarding this line of work. Due to their efforts, we have been able to develop a quality range that is demanded in Indian Subcontinent, East Asia, Middle East and South East Asia. Engineering colleges, polytechnics, defence agencies, electricity boards, bridge & dam constructing units based across India rely on our products for various functions.

We are led by our manager, who possess an extensive business acumen and has helped us in reaching unparalleled heights. Under his leadership, we have grown from...
