About Us

Acculab Industries is a group of professionals engaged in the designing, manufacturing and marketing of instruments required for different labs in various technical institutes. The company offers end-to-end solutions in furnishing the labs up to the satisfaction of the users. The basic strength of the company lies in knowledge, skill and experience gained in approx 55 years of existence in field of instrumentation. We are working in the area of optics, mechanics and electronics. Our range of instrument showcase our expertise in these areas. We have strong linkages with various development institutes in the nearby region and the latest offering from this collaboration is 'Accu - Gene' a thermo cycler machine which is begin widely used in various Bio-technology, Pharmacy and medical colleges labs for DNA amplification all over the world. Keeping up the process of development, we plan to design and develop may new products for different labs and look for the dealers to join hands with us as business partners.
