# Amex Engineering Works

<https://www.indiamart.com/amexengineeringworks/>

We are counted among the leading manufacturers and exporters of a wide range of Fabricating Items and Precision Components. Our range is appreciated for its dimensional accuracy, corrosion resistance, durability, robustness and high strength.

## About Us

Established in the year **1990**, '**Amex Engineering Works**' is an eminent business entity engaged in manufacturing and exporting a wide range of **Fabricating Items and Precision Components**. Complying with industry standards, our range is manufactured using quality tested raw material, which is procured from renowned vendors of the market. To cater successfully to the ever increasing demands of the clients, we have developed a sound manufacturing facility at Kolkata. Equipped with advanced machines and technology, our unit supports us in delivering even the bulk consignments within the stipulated time frame. Supported by a team of expert professionals, we are also capable of conducting stringent tests on the range, so that our clients receive defect free products. Under the able guidance of our mentor, '**Mr. Amit Kumar Maity**', we have been able to strengthen our position in this competitive market. His valuable experience and knowledge have helped us in garnering a huge client base in the markets of **Indian Subcontinent** and **East Europe**.
