Amiconics is conceived with the motto to provide a smart home solution. Amiconics 6device wireless switch uses remote control to operate your electrical appliances lights, fans etc. From distance without touching the electronic switch.

About Us

Amiconics is conceived with the motto to provide a smart home solution. We want to capture the market niche by providing the services that could meet the customer's satisfaction.

Our product suits the needs of houses, hospitals, old age homes, schools, colleges etc where switching on/off electrical appliances can be controlled via remote

Amiconics 6 Device Switch is a wireless switch that uses remote control to help you operate your electrical appliances from a distance without touching the electronic switch.

As the Switch remotely controls your Electrical device through remote, you just need to press the respective button on the shown remote control to turn the device ON/OFF.

Specifications

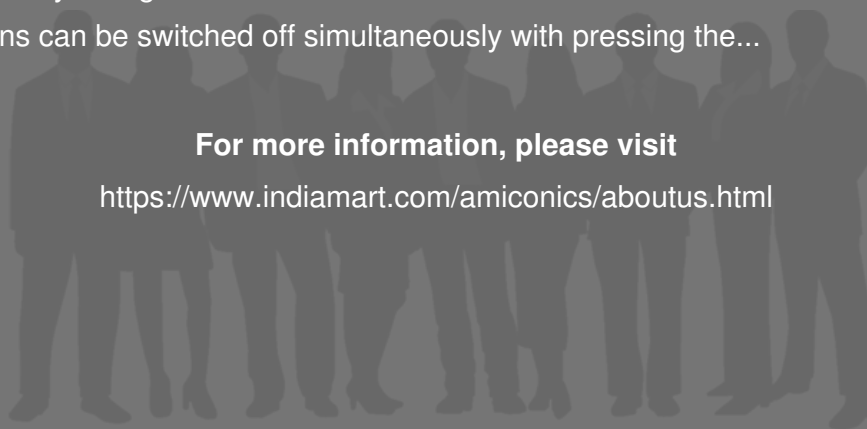

1. Operating power supply- 220 Volts/50Hz A.C
2. Maximum operable load with best proficiency- 300W
3. Maximum operable load per device slot- 200W
4. Range of Remote Control- 10m (Depending upon batteries conditions)
5. I/R based remote control
6. Use two "AA" batteries for remote control.

Benefits

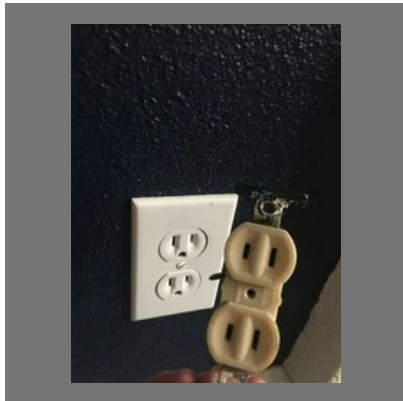

1. Total shock proof (we need not to touch the switch board as it operates with remote control)
2. Works in accordance with existing wiring
3. No need for two way wiring/switch.
4. All lights and fans can be switched off simultaneously with pressing the...
