

Anant Enterprises

<https://www.indiamart.com/anant-enterprises-meerut/>

Committed to offer the best, we are reliable manufacturer and exporter of high frequency high and low voltage transformers, coils, chokes, inductors and AC-DC adapters for OEMS.

About Us

Established with an aim to offer the best quality products, we are one of the leading manufacturers and exporters of wound components such as High / Low Frequency High/Low Voltage Transformers, Coils, Chokes, Inductors and Solenoids. Besides we also specialize in AC-DC Adaptors and HV Multipliers. Anant Enterprises is headed by a closely held management with a professional and open attitude. This results in quick decisions and fast implementation. The CEO of the company is a technocrat with more than 30 years of experience of manufacturing and supplying these components for consumer electronics, telecoms, lighting, medical electronics and the Indian Air Force. We are also represented on the Executive Council of ELCINA Electronic Industries Association of India - the only all-India body representing electronic component manufacturers.
