About Us

ACS today primarily focuses on delivering turnkey IT projects for its customers and handling peak and turf requirements in staffing needs by augmenting resources to its customers as time often trades for money while our customers have projects to deliver within a short notice. ACS offers proven software development capabilities maximizing the use of the Microsoft and Oracle technologies and Business Solutions. We help clients achieve their goals by understanding their needs and delivering software solutions to meet those needs with speed and precision.
ACS has assembled teams of exceptional people. We take pride in being able to offer clients the best intellectual capital available to help them solve complex problems. When you work with ACS, you work with knowledgeable professionals who bring valuable strategic thinking to the table along with a collaborative working style.Our agile processes combined with our focus on the Microsoft and Oracle connected enterprise allow us to use information technology to effectively address changing business requirements for the modern-day enterprise. With the advent of new technologies and the use of the internet to achieve tighter integration between an organization and its customers and business partners, the potential of IT has only grown. Successful organizations will be able to realize that potential by building a new generation of IT systems and teaming up with a new generation of business partners like ACS.
