Manufacturer of portable avionics system integration tool, ruggedised data acquisition system etc.
About Us

ACL-Apollo Computing Laboratories (P) Ltd., established in 1992 at Hyderabad has been involved in the Manufacturing of Electronic Systems in the domain of embedded computing for the National Programmes of AGNI-II, LCA, Torpedoes, Space & Remote Sensing. The Projects have been successfully completed, qualified for Military standards and are functioning in the systems. These efforts have resulted in evolving a core competence in the embedded computing domain with the emphasis on engineering & quality assurance for meeting Military standards. Parallelly, specialised products have been designed & developed by ACL in these areas and are being widely used in the Defence & Aerospace sectors. ACL has a Team of Experienced Scientists in the design, development, management & quality assurance of the Defence & Aerospace Projects, supported by Engineers with domain specific experience. The Design & Development Activity focuses on Embedded Computing, Test Systems and Digital Communication. The emphasis & the goal of ACL is to participate & contribute in the National Projects of Defence & Aerospace and in the related indigenisation Programmes by ploughing back the rich experience gained earlier in these domains.
