About Us

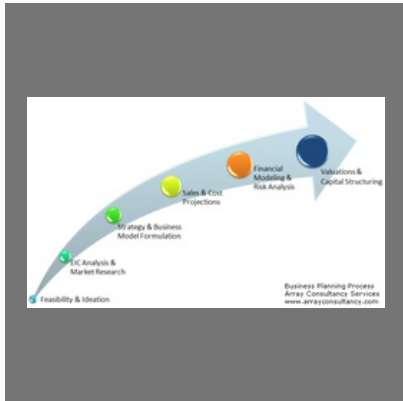

Array consultancy services was founded in the year 2004. Since then we have been helping our clients through our business and IT consulting practice. We believe in building long lasting relations with our client based on trust. We have a highly efficient and wide spread network of experts around the globe which enables us to be on the competitive edge of globalization. Our back office and research center operates out of India. We are proud and honored to have a highly intellectual and knowledgeable team of associates dedicated to provide innovative solution to clients' dynamic business problems. Array Consultancy Services was founded in the year 2004. Since then we have been helping our clients through our Business and IT consulting practice. We believe in building long lasting relations with our client based on trust. Array Consultancy Services offers various consulting services to enhance clients business. The key to our client service is our ability to integrate our expertise in functional areas with our experience in domain knowledge. We have segregated our services to support our client into various horizontals or service practices. Our management consulting practice is again segregated into various sub-practices according to the kind of work and expertise involved. Each of your management consulting sub-practices are enabled by innovative framework and research driven methodology. We have the know how all the best practices across various industries which enables us...
