About Us

Arvind Anticor Limited is a progressive Company with a focused approach and a well-defined objective of developing innovative technology towards manufacture of products that ensure protection against corrosion, and conservation of environment. The superb results in achieving this objective are reflected in the corrosion resistant thermo-plastic equipment for chemical processing and pollution control systems manufactured by Arvind Anticor Ltd. In addition to the technical know-how, intensive experience, and close collaboration with research institutes, the Company has confirmed the realization its objectives by continuous improvement in manufacturing procedures and product optimization suited to custom requirements of its select cliente
