About Us

AS Softech is a professional website development, hosting and design company. Our core of expertise resides in full service professional web design , web development and application. We have experience in properly executing small, medium or large projects from conception to delivery and maintenance. We are experienced in using the latest technologies for developing, deploying, and maintaining what a client need. We would like to initiate discussion about possible savings that your company can make by outsourcing web software development and maintenance to us. We offer competitive hourly rates, considerably lower than EU or US service providers, while keeping upper-level standards of quality and reliability. We have been providing different business solutions to companies all over the world, and we have the experience required to produce good quality websites and softwares.

We provide following web design services

1. We design a website both visually appealing as well as fully functional.
2. Focus on product display, so that your customer can easily navigate the product.
3. We understand the client's needs and we design website according to products.
4. We use jQuery plug-in for smother and faster load.
5. We continuously send the snapshot of ongoing projects to provide the complete satisfaction.
6. We test the browser compatibility for Google Chrome, Opera, Firefox, Safari & others.
7. School, institute or organization's website...
