About Us

Ascent Total Solution has a team of competent engineers and technical staff in various engineering disciplines with a rich experience in process detailing, Layout Design, Equipment Selection and Design, Utility Sizing, HVAC design for Clean Rooms, Clean Room Design and Construction, Detailing of Piping and Electrical.

With hands on experience of handling projects, manufacturing & maintenance, our team has a good track of understanding client requirements & designing a facility which meets and exceeds their expectations.

Our team members have firsthand experience of handling regulatory inspections from various International Regulatory Authorities like US FDA, EDQM, TGA, COFEPRIS, ANVISA, Brazil and WHO GMP etc.

Ascent Total Solution provides engineering design services for new projects as well as up gradation and expansions of existing plants. We specialize in the design and construction of plants for Pharmaceuticals (API's & Intermediates, Formulation dosage forms), Food and Nutraceuticals, Real Estate, Specialty Chemical & Cement Plant.

The company was started in 2010 with a vision to be recognized as a reputed engineering design & construction firm offering value addition customized to the clients in industries such as pharmaceuticals, Nutraceuticals, Food, Real estate & specialty chemicals.

The company has succeeded in these years in establishing a reputation for timely completion of projects, to specified standards and...
