**Asfera Technologies Private Limited** is one of the principal business names affianced in presenting an extensive consignment of products and services.

## About Us

Founded in the year **2011**, **Asfera Technologies Private Limited** is a pioneer business firm betrothed in presenting to our patrons a comprehensive variety of products and services comprising **Inset IVRS Solution, Convoque Complete Call Centre Suite, Asfercon Video Conference eXchange Solution, and GSM Fixed Wireless Terminals**. The products we offer are made up and designed in close precision with the pre-defined standards of supremacy using optimum-class basic material and modern amenities. To add, these products are reviewed sternly before getting shipped at the premises of our honored clients. To add, the services presented by us are widely acclaimed due to their flexibility, promptness and cost effectiveness. Supported by huge proficiency in this industry, we are affianced in presenting to our clients a supreme quality variety of services and products to our valued customers. We have selected our personnel on the basis of their experience, skills and knowledge in the concerned industry. Select from some of the best talents present in the market, these are working in close sync with each other to preserve a trouble-free working environment at our workplace. To add, we hold regular learning programs and training sessions at our end to update their understanding and knowledge with the evolutions taking place in the industry. Under the direction and management of our mentor, **Mr. Harish Kumar**, we are continuously growing and...
