We are the official LPU chapter of the American Society of Mechanical Engineers (ASME). We will share all of our non-conflicting activities here.

# About Us

We are the official LPU chapter of the American Society of Mechanical Engineers (ASME). We will share all of our non-conflicting activities here. ASME is a not-for-profit membership organization that enables collaboration, knowledge sharing, career enrichment, and skills development across all engineering disciplines, toward a goal of helping the global engineering community develop solutions to benefit lives and livelihoods. Founded in 1880 by a small group of leading industrialists, ASME has grown through the decades to include more than 120,000 members in over 150 countries worldwide.

From college students and early-career engineers to project managers, corporate executives, researchers and academic leaders, ASME's members are as diverse as the engineering community itself. ASME serves this wide-ranging technical community through quality programs in continuing education, training and professional development, codes and standards, research, conferences and publications, government relations and other forms of outreach.

## Member Overview

120,000+ members globally

Presence in 100+ countries

147 student chapters

Our mission is to bring the Mechanical Engineering community at LPU together for fun events and aid in career searches along with help with the stressing of being a Course 2 student at LPU
