About Us

Incepted in the year **1994**, in **Pune (Maharashtra, India)**, we “**A. V. Fibretech**” are engaged in **manufacturing** and **supplying** a qualitative assortment of **Battery Box, Equipment Part, Tractor Body, Signage Board, Noise Shield, Machine Cover**, etc. The offered products are manufactured by our experts using high quality raw material and advanced technology in compliance with set industry standards. The raw material used in the manufacturing of these products is obtained from the licensed and trusted vendors of the industry. For ensuring quality, we also test the raw material used in the manufacturing. These products are highly acclaimed by our clients for their features like light weight, durability, rust resistance, easy to install and precisely designed. To meet the diverse needs of the clients, the offered product is available in various designs, sizes and shapes.

We are backed by a state-of-art infrastructural unit that is furnished with the modern tools and machinery. It is segregated into several departments such as procurement, manufacturing, quality testing, research and development, warehousing & packaging and sales and marketing. This infrastructural unit helps us to provide this range to customers as per their exact demands. With the help of our sophisticated infrastructural unit, we are able to provide to our precious clients best quality products. Being a client centric firm, we assure to our valuable...
