About Us

Balaji Agro & Fertilizer was incepted in **2008** as a sole proprietorship firm. The organization is involved in **manufacturing** and **supplying** a comprehensive range of **Zinc Sulphate Heptahydrate, Copper Sulphate, Zinc Sulphate Mono Heptahydrate, Silica Gel** and **White Silica Gel**. These products are a manufactured at our end using supreme quality basic material which is sourced from trustworthy and certified vendors. The different production and distribution processes are performed by our organization have not been possible without the contribution of our highly enthused team of talented professionals. The progressive technology that has been assimilated in our units has been checked for its purity and also allows us to dispatch as per the prospects of our customers.

The overall execution of our organization is done by a contemporary and technically superior infrastructural set-up, equipped with all types of technology requisite amenities. Our infrastructural set up is constructed along the lines of worldwide demands which are highly appreciated by our organization. We have different departments in our organization such as production, packaging, administrative, research and development, sales and marketing, quality control and warehousing. Our manufacturing activities are maximized to significant levels after the divergence of different departments which has also helped us to decrease the delivery time.
