

Balaji Foundry Solutions

<https://www.indiamart.com/balajifoundrysolutions/>

Balaji Foundry Solutions is dedicated to the foundry industry for the success of foundry industrialists. Success of a foundry lies in the selection of right equipment, right products, right processes and the right manpower.

About Us

Balaji Foundry Solutions (BFS) is headed by experienced foundry personnel having exposure to castings like **Conductor Clamp, Automobiles Parts, Casting Machine, Sand Mixer Machine**, etc., involved in helping needy foundry Entrepreneurs for their needs like setting up of New Foundry, mechanization of existing facilities, up – gradation of technologies, new product developments from drawing to customer satisfaction, including designing, manufacturing of foundry tooling, establishing the processes for sample production and establishing regular production of the parts. Also is involved in fabrication activities and special purpose machines, providing regular maintenance for foundry machineries, supplying castings as per customer specification – sourcing of castings.

BFS also helps foundries in improving casting yield by better designing of the products and helps in reduction of rejection by the better process, enhancing the skill of manpower involved in production by imparting technical training to the concerned personnel. BFS believes in minimum resources and maximum output.
