About Us

BANGALORE INDUSTRIAL TRADING COMPANY was established in the year 2010 as a sole proprietorship firm at Bengaluru in Karnataka, India. Our company is engaged in trading, importing and exporting an extensive range of Industrial Products, Termination Assemblies, Industrial Valves & Bearings and many more. We offer Filters, Field Termination Assemblies, Diesel Power Generators, Stainless Steel Wire Mesh, Ring Joint Gaskets, String Wound Filter Cartridges, Industrial Valves, Industrial Bearings and lot more. These products are highly admired for their reliability, good quality, durability, precision and competitive prices. We value the importance of client satisfaction and make every attempt in the direction of quality control. Our trade base includes Indian Subcontinent, North Africa, Middle East and South East Asia. With the unmatched support of Mr. Sadatulla Syed (General Manager), our company is able to set benchmarks in the industry. Owing to his sharp business acumen, levelheadedness and disciplined approach, he has achieved goals within the estimated time frame. As an able manager, he ensures welfare of his staff members and thus, he promotes healthy competition amongst them. Our main business is to source products from one place and deliver them at the other. For maintaining high quality standards, we procure our products from trusted vendors of the industry. The entire range is checked again by our skillful employees and then is packed as per the...
