Hindustan Feeds Manufacturing Company is a professionally managed business that has been working in the field of cattle feed since 1988. The company has state of the art facilities at Satara, Baramati and Shrirampur that altogether have manufacturing capacity of 1500 metric tonnes of feed per day. We at Hindustan Feeds understand that your cattle have specific nutrition needs at different stages of life. This is why we focus on sourcing high quality ingredients to produce high quality feed so that your animals give you maximum performance. Our day-to-day operations are based on the principle that ‘true success lies in the progress of our customers, suppliers, business partners and the community’. Supported by our core values of integrity, transparency, and respect, we bring to our customers a wide range of animal nutrition solutions to help them achieve profitable business operations.
