

# BDK Engineering

<https://www.indiamart.com/bdkengg/>

Manufacturer of diaphragm valves, butterfly valves and check valves.

## About Us

Keeping pace with the global industrial growth, the BDK Engineering Industries was founded in 1978 by Bharat B. Khimji. The now US \$38 million company has since been building on a heritage of initiative and innovation, offering a wide spectrum of Industrial Valves designed for the needs of the Oil & Gas, Power, Water Treatment, Chemical Process, Fertilizer and Pharmaceutical Industries worldwide. For more than three decades, BDK's valves have enjoyed sustained and lasting reputation in both the domestic and global markets. Today with a network of fourteen marketing offices, and a group strength of a little over a 1000 dedicated employees, synergize their strengths to form one of India's largest and fastest growing manufacturers in the field of valve engineering. With its heritage of excellence, and its resources of expertise and experience, the Group is poised to realize its destiny - as a world leader in manufacturing and marketing of Industrial Valves.
