About Us

With all the elements of marketing, keeping in tact for implementation, Distribution work displays the most important for all the marketing activities.

For better coordination between various departments like Material Planning, Logistics, Sales and Marketing; we have implemented ERP System which helps indecision making for all ita Managers with real-time schedule.

Distribution area forms many other important situation like Taxation, Transport, Monitoring of dated products, level of the stocks and protect all the stocks from through out. Bela has done an exclusively channelling activities by delegating responsible persons for specific activities which will certainly reduce problems, of any nature so that the time is adequately available to the field personnel for prescription generation, with effective Brand management and projection of image of Bela. At the same time, H.O's backing will be very strong in this area to manage almost day to day procedures so that nothing can go wrong under any situation, Of course, with contingency plan to attend to all emergencies, if so arises.
