About Us

Bio-Caps India Ltd. manufactures Empty Hard Gelatin Capsule on internationally acclaimed high speed automatic capsule making machines which produce capsules suitable for running on a wide range of Capsule Filling Machines. Utilizing advanced machinery and technology, our mould pins enable us to produce a new breed of capsules that eliminate functional defects which causes problems to customers during the filling operation. Our product has excellent filling performance on both high speed automatic and semi automatic capsule machines. The capsules are available in a wide range of sizes, colours and print options.
