About Us

Bio Nutrients India Pvt. Ltd. has established a state of the art Manufacturing facility with in house quality lab at Plot no.10, Sector-B, Mandideep Industrial Area, Dist. Raisen to Manufacture Spray Dried Soya Milk Powder. Consumer attitudes monitor and human dietary PROTEIN requirement by the FAO/WHO/UNU has revealed a preference for SOYA PROTEIN as a more healthful ingredient in comparison to animal protein in the form of meat and dairy products. Besides being highly nutritious, researchers have found that the Soyafood has numerous health benefits when consumed. Soyafoods are an excellent source of digestible protein. While rich in vitamins (Vitamin A, E, K and some Vitamin B) and minerals (Potassium, iron, zinc and phosphorous), the soyabean is low in saturated fatty acids, with 60% of the unsaturated fat content consisting of linoleic acid linolenic acid, both known to promote cardiovascular health. The soyabean contains no Cholestrol, Soyafoods are also lactose free, which is of great benefit to the lactose intolerant consumer.
