About Us

Engaged in manufacturing and exporting large consignments of Scaffolding Fittings, B.N. ENGG WORKS, we 'B.N. ENGG. WORKS' established in 1972, have achieved a benchmark position in a short span of existence. Our quality manufacture includes Coupler, Anchor Nut, Bottom Cup, Ledger Blade, Ledger Pipe, Rapid Clamp, Timber Walling Clamp, Tie Rod, Tie Rod Connector and others. We have employed a team of industry experts with us to ensure that we manufacture products of international standards. These people are responsible for all professional activities going on in the industry. Maintaining a professional environment, our people work in proper coordination with each other. Professionals working with us are well aware of industry terms and conditions and always work hard stretching their limits to help the company breadth in fresh air. Mr. Sunil Gupta, mentor of the organization has helped the organization test the taste of success. He is a man with vision having rich industrial experience and in-depth knowledge of the domain. His wide spread relationships with client and abilities to offer easy and transparent business norms has helped us in catering the clients ion best possible way. We export our products all over Indian Subcontinent.
