About Us

Established in 1991 by first generation entrepreneur Mr.Vivek Bhamare, Boost Electronics is one of the reputed manufacturers, exporters and suppliers of automation and control Panels. In addition to it, we also offer range of Interfacing Modules, Relay Modules, Signal Isolators and Converters, SMPS, Cable Assemblies etc. used in PLC and CNC applications.. We also manufacture range of electrical control panels. Our comprehensive range of products is highly appreciated by our multinational customers and we also export our products to countries like Germany, Indonesia, Korea, Sri Lanka etc. One factor that has led us this far is our relentless focus on quality. At BOOST we follow strict quality processes and we are an ISO 9001 - 2008 certified company. Some of top automation brands stake their reputations on our products every day and have done so for years. What makes giants like Siemens, L & T, HMT trust the insides of their products to us? It can be summed up in one word - trust. Our customers trust us. We manufacture and customize original equipment as per specifications and as per schedule. Customer service is not a word we use lightly.
