About Us

BOSE is a famous trademark in interiors. BOSE have a wide variety of italian design handles, Swarovski elements and drawer channels made with high technology, lock body and lock cylinder series, professional floor hinge series, patch fittings, shower hinge series and many other architectural products.

We at BOSE believe, that in order to thrive in today's market place, it is not enough to do the same things as other companies are doing, we need to think differently to outperform the competition.

For us, quality is the first aim. After years of efforts, our products are now used in many well designed homes.

We believe that only through consistent quality delivery and performance will we achieve our true growth.

Our brand is a famous trademark in interiors. We have a wide variety of italian design handles, Swarovski elements and drawer channels made with high technology, lock body and lock cylinder series, professional floor hinge series, patch fittings, shower hinge series and many other architectural products.
