About Us

Broker Analysis is an initiative to empower retail traders with all there is to know about the various stock, commodity, currency brokers and compare brokers in India. We have developed an online discount broker comparison tool, it can help in comparison of more than 70 top broking firms in India. Our discount broker comparison tool will help you find the best online discount broker in India to manage all your stock market portfolio and will help you make the right decision on trading. Our online broker comparison tool allows you to review and compare all stock brokerages side by side. Research our ratings from the 2016 Broker Review, assess commissions data, fees, margin rates, account features, banking features, as well as mobile trading support for every discount broker. You can compare 3 brokers simultaneously to find out the best discount broker to manage all your online brokering activities to get a higher return and also do the comparison of top stock brokers. Now that you have decided to start trading in stock, it is important to choose the right broker which fulfills your requirements. Zerodha, RKSV Security, Trade Smart Online, TradeJini is most popular discount broking company in India. But still have confusion to find the best broking company, Now we come in the frame. We will help you find the best stock broker in India for you and also provide the best online trading platform in India. Register today to...
