## About Us

Btn Infosolution was established in the year 2014. We are leading Service Provider. We are a provider of online marketing service globally through proper business planning and strategies to divert traffic to our client's sites thereby converting visitors to buyers. A huge increase in sales would be possible once our client's sites secure a first page ranking on the search engine results page of Google. As a result there would be an enormous number of web hits. The fact that digital marketing is cost effective and also the fact that it's easily measurable in comparison with traditional advertising and marketing is what is unique about digital marketing. Online marketing is effective for small and medium entrepreneur.

We have the expertise to successfully achieve conversion rate optimization for the websites of our clients. The products or services of our clients are held in high esteem and therefore we leave no stone unturned to ensure that they are represented with aesthetic sense.

To create mass appeal of our client's products or services, our professional team are motivated to understand the goals and objectives of our clients and offer flexible solutions. Preset client targets are analyzed from a technical viewpoint first and then measured, refined and enhanced. Websites that we develop run on any handheld device; tablet, mobile for example and other handheld devices as well. BTN Infosolution has been providing responsive website design...
