About Us

Butterfly is a pioneer in premium stainless steel home appliances. A four decades old company, Butterfly was the first in India to introduce stainless steel Pressure Cookers and Vacuum Flasks. And among the first to acquire ISO 9002 certification in the LPG Stove and Mixie divisions.

From just a handful of basic kitchen utensils, Butterfly today, manufactures a comprehensive range of home appliances, kitchen products and cookware of the best quality, the highest functionality and the latest styling. Under the enterprising leadership of the late Sri. Murugesu Chettiar and his sons, Butterfly is a trusted name not only in India but also in the United Kingdom, Canada, Australia, Japan, Middle East and East Asian countries.

State-of-the-art manufacturing units, in-house design, die-making facilities, R&D centres and above all an impetus on quality control has enabled Butterfly to consistently produce products at international standards.
