Providing HR outbound training, building high performance, working through result, program objective, experiential learning services etc.

## About Us

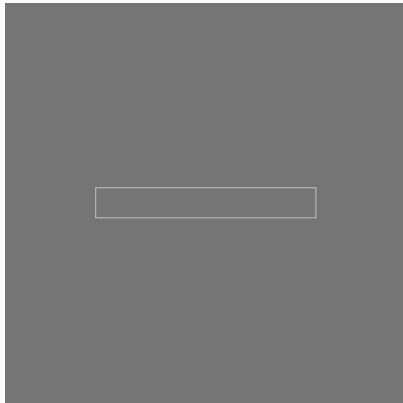

**CAPTURE** is a professional managed HR Outbound training and adventure organization headquartered in Bangalore . Since its inception, we have constantly upgraded our strengths in all areas of adventure tourism, eco tours execution & management. Backed by a team of young dedicated professionals, we have pushed all areas of adventure tourism & sports into a new frontier, whether it is **backpacking** in the Western Ghats, **adventure challenge course**, **white water rafting** and many more...conceptualizing customer requirement and HR Outbound Training Programs. The urge to deliver more than the clients' expectation has always been our top priority. Backed with 7 years of experience ? investment & time to ensure that all programs are followed keeping in mind international safety standards. Our philosophy is never to run a canned program, but to tailor make and customize programs based on the profile of the participants and the needs of the organization. This investment of time and effort ensure that all programs will be very specific to the needs of the company. Key to the process of customization is the strength which **CAPTURE** has in research and design of the programs. This strength reflects not in concept development but in using interactive training methods.
