## About Us

We recognize that your business is like no other. "Standard", off-the-shelf solutions and processes may not work for you. At Censeo, client service is the top priority which is why we work with you to customize our services and solutions.

When you decide to hire Censeo to partner with you for any of our services or solutions, you can expect the following:

- An initial input session to discuss your specific needs and review any documentation to be shared.
- Once determined, we will provide you with a proposed action plan for managing your account or project.
- Execution of a contract or agreement.
- Submission of invoices, documents or contracts to Censeo via email, fax or hand deliver.
- Processing of data, documents or transactions by our accounting or business professionals, depending on the services or solutions selected.
- Quality check/review of data by accountants, IT or marketing professional, depending on services selected.
- Review of transaction processing or project by client.
