# Chandra Electricals

<https://www.indiamart.com/chandra-electricals/>

Offering water pumps repairing services, control transformer repairing services etc.

## About Us

We are expert in Repairing small and large industrial motors, crane duty slip ring motors, DC Motors, AC Motors, Control transformer, Rectifiers Welding, Generators, Alternators, Water pumps and other industrial equipment. With 25 years of rich industrial experience, we are catering our repairing and annual maintenance contracts to our numerous clients based globally. Our services are very effective for different kinds of machines and equipment that is high in demand in domestic and international markets.

We are a leading name in the electronic engineering industry offering outstanding repairing and rewinding services over various industrial electrical motors. These services are rendered while using quality raw material and insulation material, which is procured from some of the leading vendors, based across the globe. Further, we use technically advanced machines for effective execution of the repairing and rewinding jobs that we offer. We undertake projects related with repairing and rewinding.
