About Us

At CHNYD TRACE Private Limited, we understand the importance of secure and reliable cybersecurity solutions. That's why our name, CHNYD, is more than just a name - it's a mission to protect India's companies. Our vision is to provide cutting-edge technology that enables our clients to trace their cloud, hybrid, network, and yottabyte-sized storage and logs. Our goal is to offer comprehensive coverage for organizations of all sizes, so that they can focus on their core business, free from the worry of data breaches and cyber attacks. The acronym CHNYD represents our commitment to providing cloud, hybrid, network, yottabyte defense solutions. We believe that the integration of these technologies is key to securing the information assets of organizations in the digital age. Our solutions are designed to keep pace with the evolving threat landscape and provide our clients with the peace of mind that their data is secure. At CHNYD TRACE, we are dedicated to helping our clients defend their organizations at all costs. Our team of experts works tirelessly to develop and implement the latest and most advanced cybersecurity solutions. We are driven by our passion for innovation and our commitment to our clients' success. If you're looking for a trusted partner to secure your organization, look no further than CHNYD TRACE. Contact us today to learn more about how we can help you protect your company and its valuable assets. Our experience. Your peace of mind. Our technical...
