About Us

The founder Director and CEO of Citizen Group Mr. Kamalesh Mehta established a Small Scale industry in 1986 for manufacturing of Fan Coil Units and Air-Conditioning Equipment for domestic application. Mr Mehta acquired the work experience for 6 years in the field of marketing, designing and installation of air-conditioning equipment prior to starting his own industry.

Within a short span, in 1990 the group established another unit for the manufacturing of Air Handling Units with larger manufacturing setup. In 1992, one more factory was established for the manufacturing of Cooling and Heating Coils.

Considering continuous rise in demand and addition in product range, the group felt the necessity for larger manufacturing facility. In 1997, the group established a larger factory of about 4,000 sq.mt in approx. 10,000 sq.mt. land area forming a closely held public limited company. To minimize the product cost and to have better control over quality, company installed all necessary manufacturing facility in-house. Also to have better command over production activities, the operations were centralized merging two smaller units with the new one.

In 1999 Citizen Group ventured into another product line, close to its original business of HVAC equipment. The group started the manufacturing of equipment related to Lab environment acquiring a property of approx 3,500 sq.mt. built up area. All the products manufactured in the new line are unique in technology and highly...
