Claustra covers the entire range of outdoor design from open space planning near or even inside buildings using nature as a basic material for a work of art.

About Us

Claustra covers the entire range of outdoor design from open space planning near or even inside buildings using nature as a basic material for a work of art. To us landscape is an art in where exterior spaces are developed into extensions of the interiors-gardens are fitted into building structures green facades and roofs are its wide scope, as well as backdrop buildings through which architecture becomes an element of landscape design.
