About Us

Shifters is an India based organization that offers professional packing services and professional moving services for your moving requirements throughout India and abroad. We offer a professional touch to the delicate but yet tedious process of packing, shifting and relocating. We began operations in 1993 as an entrepreneurial division of the reputed SRC Group (organized since 1957). But today we have grown out of our image as a sister concern; this remarkable growth has emerged as a result of our focused determination and a keen eye to be perfect in what we do. With a decade of experience in the field it would only be apt if we could call ourselves as one of the country's leading packers and movers specializing in household & corporate goods transportation.
