SONS' INDIA SOFTWARE is a leading software products and services company having a presence in more than 5 countries. SONSINDIA ISO 9001:2008 certified. At SONSINDIA we have the experience & expertise to respond to the unique challenges.

## About Us

We specialize in the business of providing Application Development & Maintenance ( ADM) services to our clients globally. Our forte encompasses the broad spectrum of your business - whether building custom applications, developing database intensive solutions, tailoring an existing software product to meet new requirements, creating a collaboration and communication platform or providing support: we do it all. Our ERP and software development processes are optimized to deliver cost effective and high quality services. SONSINDIA IT Outsourcing services helps organizations to manage their complete IT infrastructure. This frees up senior management's time from the IT decisions so that they can concentrate on their core business. SONSINDIA can help plan, integrate, manage, implement, transition and modulate IT Infrastructure of any organization to any scale and complexity. A true ERP consulting firm or ERP software provider offer services globally.
