About Us

iCAPES is young and dynamic organization started under the guidance and association of veteran experts and the GURU's of the industry. It was conceptualized after an extensive study of the employability requirements and training requirements of the corporate world. Our training methodology is one that caters for the requirement of the trainee in every aspect. This was conceptualized through a series of interactions with academics, professionals, experts and prospect trainees. Training at iCAPES is delivered by experts, who have spent many years in the industry. iCAPES currently provides training programs on mobile platforms.
