About Us

Ever since our inception in the year 2009, we, “Shri Jiyaji Automation Systems”, are involved in supplying a world class range of Security Systems. Our products are designed for surveillance activities and cater to a diverse market including detective agencies, enterprises, multinational companies, schools, market places and all common public spaces. These products are essential to ensure safety in this era, where terrorist activities have seen an unprecedented growth. Our products are known for their compact designs, reliable technology, efficient & trouble free operations and economical pricing. These attributes have made these products extremely popular in the market. We have core competency in supplying and service providing an extensive range of Security Systems. Our products include Child Tracking systems, CCTV Camera, Vehicle Tracking systems, Spy Camera Products, Spy Guard for Home security, Door Video Phone System, Access Control Systems and other Various Security Products. These products have become an essential part in modern times and are commonly installed in large or small organizations, institutions, public spaces and even residential societies & apartments
