About Us

Compliance Watcher is a legal & regulatory compliance management software solution provider. Providing incomparable experience, comprehensive compliance management solutions across globally multiple industries and business functions. The Compliance Watcher collaborates with successful compliance service provider to help them become more efficient in compliant with laws & regulations and internal policy of organization. Compliance Watcher partners with compliance service provider / industry leading knowledge and technical experts for providing total compliance solutions to safeguard the integrity of business processes and policies and improve the quality of the organization's compliance with increasingly complex industry regulations with compliance management solutions. It is a provider of compliance management software, named compliance watcher. We continuously monitor and update our regulatory compliance software and data to meet ever changing requirements. It provides an effective legal compliance reporting system, which deals with all the laws applicable to the company and it helps in preparing the initial compliance reports / status summary from the operating level and submitting the same to compliance officer and then to place periodically to the Board through the M.D. /C.E.O. reporting within the stipulated time as required by laws. Thus it saves the company from fines, penalties, prosecutions (Civil and Criminal), show cause, strictures, etc. Compliance...
