About Us

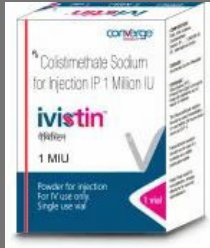

Team Converge comes with exceptional know-how and in-depth understanding of the global pharmaceutical and generic business. We strive to create great value for our customers by leveraging our expertise and resources across the globe. Indian domestic formulation business is growing high year over year and for us this means millions of patients are torment with inescapable illnesses. Today in India, generics are helping these patients to get the world-class therapeutic care at an affordable cost. Converge Biotech is launched with one such thought to provide benefit to both healthcare providers and patients to experience the use of quality generics with our innovative dosage and packaging options. We focus to deliver best affordable medicines in chronic segments and help the patients to reduce huge financial burden. Our prime motto is to build strong relationship and trust with stakeholders, patients and healthcare providers in generic market. Through our continuous medical education programs and academic updates, we promise to provide the best possible information to the healthcare fraternity and valuable insights to the patients.
