## About Us

Corion is a state of the art, **ISO certified**, Infertility clinic, located in a quiet residential area in Andheri, an easily accessible and busy suburb of western Mumbai. Established in the year of 2010, the clinic is the first in the Western region to have a world class laboratory which strictly follows the international quality standards and stays committed to deliver the best to its patients. The moment one enters the clinic, the ambience of the clinic generates a feeling of warmth and positivity that immediately removes all the anxieties and puts one at ease. The courteous staff is very welcoming and is ready to take care of your smallest needs. All services right from an initial fertility work up involving an examination and blood tests to undergoing endoscopic surgeries and In vitro fertilisation (IVF) or Intra Cytoplasmic Sperm Injection (ICSI) and Embryo and Sperm cryopreservation is done under one roof. Dr. Kaushal Kadam, the Medical Director, who has been in this field for more than a decade and has given joy of becoming parents to numerous couples, personally takes care of each patient right from the time they come for their initial consultation to ultrasounds and finally their pregnancy test. This is what makes her clinic, Corion, unique as the delicate parts of the treatment are not handed over to other IVF staff members but taken care of by her. She has been known for her dedicated approach in this field and her clinic excels in treatments for third...
