About Us

Cosmo Hospital is a landmark tertiary care health destination at **Sector- 62, Phase 8, Mohali**, promoted by a team of professionals. The multi specialty hospital with modern diagnostic centre and a capacity of 60 beds. The technology advantage is complemented by the man power excellence providing sophisticated and specialized medical care at affordable cost. Hospital is strategically located in Mohali (Pb) township bordering Chandigarh, having large, affluent and increasing corporate population.

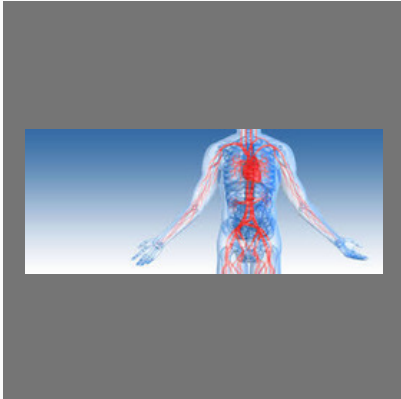

The hospital was started in 2005 through the efforts of Dr.Manjit Singh Sekhon who is a practicing pediatrician serving the population of Chandigarh, Mohali and panchkula since 1985. During this period he became acutely aware of lack of indoor medical facilities in the private healthcare sector in this region. In order to address this deficiency, Cosmo Hospital was constructed as a state of the art facility. Special emphasis was given to maternal and child health issues. Most other medical and surgical facilities were also added. At Cosmo our motto is best medical care at affordable rates. There are special discounts for poor patients. Our doctors regularly hold free camps to take care of health needs of the community. We have many outreach programmes which address social and preventive health issues.
