Traders of all kinds of earthmoving machineries.

## About Us

Crawler Climax established in 1967 as an average organization promoting products of a few many established manufacturers of spare parts for Road Making, Mining and Construction Machineries. The motto then was "Exertion, Devotion, Innovation & Sincerity" and still is. Crawler Climax established in 1967 as an average organization promoting products of a few many established manufacturers of spare parts for Road Making, Mining and Construction Machineries. The motto then was "Exertion, Devotion, Innovator & Sincerity" and still is. The Company had a unified philosophy based on long term consumer and dealer satisfaction and expansion. Over the years the organization has been able to maintain an inventory of almost 16000 replacement parts for Komatsu, Beni and other earthmoving and construction machineries. Ours is a consortium of more than a hundred established spare parts manufacturing units hi the country. Import substitutes of spare parts for different machineries was our challenge hi our early years, which made us successful in that area. We dare to take the on today's need i.e. quality, durability and warranty of standard parts. We even undertake after sales services of assemblies. Our value added services has enabled us to win the trust of our valuab: Technically superior service is the backbone of our organization.
