About Us

Photography to us is about many things — a photograph gives us something to remember, it gives memories of our lives, captures life.....it remembers little things, long after you have forgotten everything. As our primary interest lies in wedding photography, we believe that during a wedding there are often moments that pass by very quickly and are often so important for the people in it. We like to call these moments as “Butterfly Moments” (that is how we came up with our logo design). Photographing weddings is a truly rewarding experience. Through our lens we see so many emotions unfold — hidden tears, joyous hugs, laughter which makes a roomful of people smile with happiness, rituals which brings us back to our roots, our heritage and our culture. We experience beautiful artwork with intricate details created with lots of passion and hard work by different wedding planners, florist, makeup artist and designers that makes the wedding even more so special. And we, as photographers love to capture such details to be remembered forever ! Lastly, we get to witness our couples stories of love, laughter and happiness. And we like to frame those moments for a lifetime. It would be our great privilege to be fleetingly a part of your wedding day. We hope you enjoy viewing our images and look forward to speaking to you about your big day !
