

Crisco Consulting

<https://www.indiamart.com/criscoconsulting/>

We are a prominent name occupied in offering a high-quality Software Development Services, Sap Services, Consulting Service. These services are handled by expert's team who has rich industry experience and skill.

About Us

6 years back we started with a mission to provide a Exceptional ERP with extreme precision to every business owner in India. But what actually happen was we met great failures with every client so we identified many reasons but among all of those the number one culprit was **TIME...** yes with our experience and research we found out that there is 75% failure rate in the ERP industry because ERP's take lot of time to Implement. So to tackle this we scraped down the traditional method to implement the ERP and start building the new, aggressive and scientific method with a goal to minimise 1 week of time to implement with every new installation and slowly reaching to the Magical number of 1month(30days) from earlier of 6 to 8 months(183 to 245 days). So being bold and acquiring Speed ensures your 100% implementation and to seal the deal for extra safety we also started to provide one ERP expert at your location for full 1year for training, minor changes and guidance.
