Kapoor Engineering Tools

<https://www.indiamart.com/crownblades/>

An ISO 9001:2000 organization, engaged in manufacturing and exporting of saw blades. The quality of every Crown Blade is the result of 60 years experience, research, quality control and specialised machinery.

About Us

We are the leading Manufacturer and Exporter of wide range of Crown Saw Blades. We manufacture Hack Saw Blades, Jig Saw Blades, Jack planer Blades (Randa Patta), Iron planer Blades, Key Hole Saw Blades, Hole Saw Blades, Junior Saw Blades, Piercing Saw Blades, Fret Saw Blades, Coping Saw Blades, Agriculture Knives & Tools. The quality of every Crown Blade is the result of 60 years of experience, research, quality control and most up-to-date machinery both imported and indigenous. Best production technique and quality control followed up by inspection and testing at every stage of manufacturing ensure that all blades leaving the factory meets the precise standard and requirement of the customer. Special attention has been given to equip the factory with top class equipments for quality control and testing. Our research and development wing is always working for achieving the world-class standards in Saw Blades. We are always ready to develop new items in our line to meet requirement of our customers. We are the only Manufacture of Saw Blades in the country, having our own 4-HI-COLD-ROLLING FENN AMERICAN MILL to produce best quality steel strips as per our specifications and standards. In recent years we have strengthened quality management and inculcated high values to our Company. Our Organisation is an ISO 9001:2000 Certified Company.
