Cummins India Limited

<https://www.indiamart.com/cummins-india/>

Cummins in India, a power leader, is a group of complementary business units that are Manufacturer of diesel and natural gas engines, generator sets and related services.

About Us

A Power Leader Cummins in India designs, manufactures, distributes and services diesel and alternative fuel engines from 2.8 to 95 liters, diesel and alternative-fueled power generator sets of up to 3000 kW (3750 kVA), as well as related components and technology.

Part of the US \$23.8 billion Cummins Inc., Cummins in India serves customers through our network of 3 Generator Original Equipment Manufacturers (GOEMs), 22 dealerships and more than 120 dealership branch offices in India.

Cummins in India is organized into four distinct but complementary business segments:

Engine Business Unit

The Engine Business Unit designs and manufactures state-of-the-art diesel and natural gas-powered engines. The business also offers new parts and remanufactured parts and engines.

Power Systems Business Unit

The Power Systems Business Unit provides high-horsepower engines and power generation across India with standby and prime power generator sets, alternators, paralleling switchgear and other components. Power Systems offers integrated generator sets that range from 7.5kVA to 3750 kVA for use in commercial industrial, mining, marine, and defense applications to name a few.

Components Business Unit

The Components Segment consists of four businesses with key technologies for delivering integrated solutions: Cummins Filtration, Cummins Turbo Technology, Cummins Emission Solutions and Fuel Systems.
