

Custom Technologies

<https://www.indiamart.com/customtechnologies/>

Custom Technologies is a technology initiative for distribution of tools, technology products and providing solutions in CUSTOM FLAVOUR that bring convenience to your efforts, fasten your design and product development cycles.

About Us

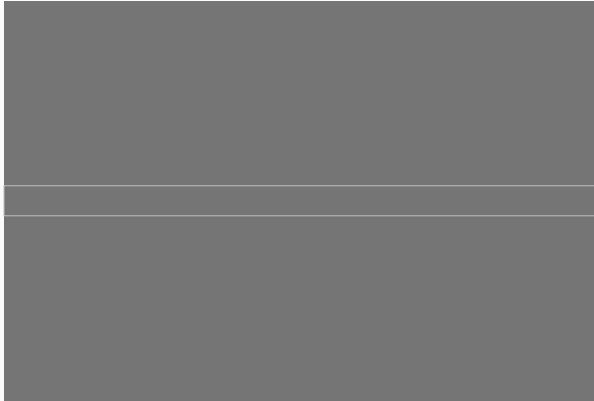

CUSTOM TECHNOLOGIES, known as CT, started in the year 2009 for distributing technology and technology products with an objective of being a solution provider in a CUSTOM FLAVOUR with a technical support that strives to exceed customer expectations by treading a little way past into the impossible. At the helm of affairs at CT is **Mr.George Thomas**, Msc. Phy MBA, a marketing veteran of over more than 30years of experience and expertise with State owned Infrastructure Company. Starting career in the Early '70s he has served at Chief Executive Levels with human resource and materials management in challenging scenarios. The strength and expertise harnessed from the experience propels CT. Operations at CT is managed by Mr. George Kottackakathu Thomas, MTech C&I with an experience of over 7 years in sales and marketing of embedded development tools and other technology products. Since its inception CT has been bringing in innovative products and technologies developed world wide to our native to harness the benefits offered in convenience, safety and security. It is the endeavor of CT to be a customized single stop solution provider with emphasis on understanding customer requirements.
