About Us

Founded in 2004 by Dr Apratim Goel and three other helping staff, Cutis was one of the first fully equipped dermatology, laser and aesthetic clinic in South Mumbai. The concept of a medical practice in a spa like atmosphere became popular among patients and so too among other physicians in the area. This has been possible through individualized attention by Dr Goel herself to all patients. This positive feedback from our patients and need to be present in the suburbs of Mumbai helped us start the second branch of the clinic on Hill road in Bandra west which is also a state of the art clinic.
